## Summary

---

Full-stack developer with 3+ years of hands-on experience building modern, production-quality web applications. Strong focus on React, Node.js, and TypeScript. Passionate about open-source contribution, mentoring, and delivering high-quality code. Currently seeking opportunities to apply my skills in a collaborative team environment.

## Technical skills

---

**Languages:** Typescript, Javascript, Python, Golang

**Technologies / tools:** Reactjs, Next.js, Redux, Redux toolkit, Nodejs, Fastify, Expressjs, JWT, SQL, NoSQL

**Testing tools :** Supertest, Jest, Cypress, React Testing Library, Vitest

**Cloud / DevOps :** Github Actions, Docker, AWS, Linux, Vim

## Professional Experience

---

### Independent Developer

2022 – Present

- Balanced development work while managing family business responsibilities.
- Contributed to the riot.ml open-source website, improving design and responsiveness.
- Built multiple production-style full-stack applications:
  - **Iconic:** AI icon-generator SaaS app with Stripe billing, AWS S3 storage, Next.js, TRPC.
  - **Shoppy:** E-commerce platform built with React, RTK, Fastify, MongoDB, Typegoose and Paypal.
  - **Win98 Paint:** Windows-98-style painting app with React, Redux, Vite.

### Full-stack Developer Intern, ShapeAI, Remote

August 2021 – February 2022

- Served as a tutor for a coding boot camp, teaching JavaScript and React and Node.js to aspiring developers. Provided hands-on guidance, explained complex concepts clearly and approachable way, and supported students in building practical, real-world projects to enhance their skills and confidence.
- Explained complex concepts clearly, supported student projects.
- Developed full-stack React apps using Mongoose, Tailwind, Redux.

### Lead Front-end Developer, Iventors Initiative Pvt. Ltd., Remote

January 2021 – June 2021

- Lead front-end developer for a startup building the next-generation e-learning experience.
- Developer for an inclusive and supportive mental health platform.
- Mentored and guided a team of three interns in front-end development, fostering their professional and personal growth.

## Projects

---

- Riot.ml (OSS): <https://github.com/riot-ml/website>
- Hop: <https://github.com/sushiJ/music-player>
- Iconic: <https://github.com/SushiJ/iconic>
- Win-98 Paint: <https://github.com/SushiJ/win98-paint>

## Education

---

JECRC University, B.Tech. in Computer Science

2017 – 2021

- CGPA: 7.51/10
